

ULTIMATE UFIBER! INTRO KIT

Take your finishing to the next level with the **UFIBER INTRO KIT**, featuring point and end-type brushes engineered for tight spaces, complex geometries, and a wide range of materials.

Why UFIBER?

- Designed for high-end results with advanced NANO technology
- Unmatched grinding efficiency
- Consistent, reliable, and powerful performance
- Maintains uniform cutting power throughout the entire tool life
- Suitable for virtually any material – from aluminum to hardened steel
- Operates at speeds up to 12,000 RPM without bristle expansion
- No deformation – maintains shape and performance under pressure

IDEAL FOR:

- CNC Machines
- Robotic Arms
- Handheld Rotary Tools
- Tight spaces and hard-to-reach areas

Plug & Play

8 POINT BRUSHES

Ø 1.5 mm / 0.059" - 4 Grits: #200, #600, #800, #1200

Ø 3.0 mm / 0.118" - 4 Grits: #200, #600, #800, #1200

16 END BRUSHES

Ø 5.0 mm / 0.197" FLAT DESIGN" - 10 Grits: #150, #200, #400, #600, #800, #1000, #1200, #2000, #3000, #6000

Ø 5.0 mm / 0.197" ANGLED DESIGN" - 6 Grits: #150, #200, #400, #600, #800, #1000, #1200
